JOY

to the world!

Activities we're looking forward to on our vacation include celebrating with a Christmas Eve feast at the Allen's home, visiting Disneyland, watching the Nutcracker ballet, and catching up with much-missed friends and relatives.

Sincerely,

The Weston Family
Abe, Janine, Natalie,
Max, & Madeline

We can't say we're planning for a white Christmas in Fremont, this year, as it has been warm and sunny the last several weeks. We really are blessed to live in an area that stays so mild yearound!

This Christmas, the *Weston Five* are planning a trek down to Thousand Oaks with layovers in Shell Beach (to visit Grandpa Tim) and Arroyo Grande (to visit Great-Aunt Les & Uncle Mike).

Weston Family Photo 2006

It only took us 473 shots to get this *one*. Hope you like it--it's the best we could do!

Fall in Fremont

As a family of five, we've realized that it is much harder to go more than ten miles from home...so, we've spent most of the fall enjoying Fremont. Highlights include Sunday afternoon walks around Lake Elizabeth to observe the changes of the seasons and visiting the pumpkin patch, corn maze and Monarch butterflies at Ardenwood Farms.

Madeline is now rolling and scooting (on her back) all over the house. It's not suprising to find her in the kitchen or under chairs, fully engaged in exploring her surroundings!

Max looks forward to toddler storytime at the library. He finds hiding in the curtains and jumping off the steps very entertaining. At Max's first dental appointment he cried and tried to kick the dentist when she looked in his mouth. Good news: no cavities!

Natalie, our little thespian, performed in her first church Primary Program with the lines, "I can pray to Heavenly Father. He listens and answers my prayers." She was not at all shy but belted her part over the microphone for all to hear! Lately, Natalie employs her many talents in a creative dance class where she shines like a star!

Abe has given up at getting rich, but he sure enjoys his current position at CheckPoint as a software engineer.

News

Janine is off and running with another side-business...but this time it's *serious*. Curious? Visit:
